

# Are you prepared for long-term care?

## Myths:

## Facts:

"I'm too young"	"Long-term care needs can be precipitated by an illness/accident at ANY age. And premiums are lower, the younger you are when you buy."
"My family will be able to take care of me"	"Around the clock care is often not possible physically/mentally/economically for an untrained family member"
"Medicare and Medicaid will cover my expenses"	"Medicare pays a limited amount for those over 60 and Medicaid is based on financial need, meaning you must 'bleed down' your assets before it pays."
"My investments will get me through it"	"The cost of long-term care is skyrocketing. Is this how you want your retirement dollars to be spent?"

## NEW BENEFIT FOR NGAIF MEMBERS LONG TERM CARE INSURANCE

*Discounted rates also available for your spouse and parents*
